

## How to self-guide

This map of ASU's Polytechnic campus is a broad map that will get you to some of the most popular spots on campus. Use this map for a general campus tour, or if you are looking for a more in-depth tour experience, scan the QR code to learn more about all of our tour options. These include audio tours and our self-guided tour app where you can find detailed tour routes or build your own tour experience.

Take a self-guided tour on campus with the ASU Visits mobile app! Find out more at [tours.asu.edu](https://tours.asu.edu).

## Safety information regarding your campus visit

Arizona State University is committed to providing all students and guests with a safe campus environment by offering services and resources to keep you secure on and around campus. Please note that ASU is a free speech campus. [asu.edu/safety](https://asu.edu/safety)

### ASU Police

Located on all ASU campuses, the ASU Police Department is a full-service, 24-hour campus police force. Its crime prevention unit coordinates a variety of safety training classes to ensure all students know how to avoid or react to any unsafe situation.

### Emergency call boxes

Located throughout all ASU campuses and parking structures, emergency call boxes are marked with a bright blue light and connect directly to the ASU Police Department.

### Key card access buildings

Many ASU buildings use a key card access system, so on-campus guests may not have access to enter certain buildings. This is to keep our students safe due to ASU being an open and public campus.

## ASU Indigenous Land Acknowledgement

Arizona State University's campuses are situated on the homelands of many Indigenous peoples. ASU recognizes the original inhabitants of these lands. Watch the video:

Take a self-guided tour on campus with the ASU Visits mobile app! Find out more at [tours.asu.edu](https://tours.asu.edu).

**Quads** is a group of buildings that provide several campus student services, including the University Housing offices and a UPS office for mailing convenience.

The **Administration building** houses offices for the International Students and Scholars Center, and the Pat Tillman Veterans Center. Staff are there to assist students with academic records and transcripts, financial aid, New Student Orientation, registration, and undergraduate admission.

The **Academic Center** is located in the heart of campus and houses the library, Barrett, The Honors College, Changemaker Central, Computing Commons, Counseling Services, Career Services, the tutoring and writing center, and state-of-the-art classrooms. The University Technology Office and American Indian Student Support Services are also located here.

The **Simulator Building** is where students in the professional flight program use five airplane simulators to prepare to take flight. Other laboratories for the engineering programs are also located here, so students get practical experience with automotive, aeronautical and manufacturing technologies.

The **Student Union** features an expansive dining area and food court, and was the first public-use ASU building on the Polytechnic campus constructed from the ground up. Also located in this building are the University Registrar, financial aid and enrollment services, the student library, dean of students, and academic support services.

The **Poly Garden Commons** is a hands-on learning space for the ASU community supporting a holistic, local food system. Students and faculty members participate in the growing process through classes, guided events and volunteer hours.

The **Technology Center** provides students with ample room to dream up new ideas and create plans to make those ideas happen. Featured equipment includes a ShopBot 3D wood router, Epilog and Universal Laser engravers, 3D printers, a vinyl cutter, and a variety of hand tools and other prototyping equipment.
