ASU

West campus

Highlights and experiences

Walk through the Paley Gates.

The Paley Gates are a trademark of the West campus and a deeply rooted tradition for students.

Enjoy the courtyards.

Sip on coffee in one of the many Oxford University-inspired courtyards of West campus.

Find your favorite fountain.

Of the nine water fountains, pick your favorite one and make a wish!

Tour the Sun Devil Fitness Complex.

If you go to the second floor, you can catch a beautiful view of the West campus.

! Health and safety

The health of the Sun Devil community and our guests is our top priority. Please follow all health and safety guidelines presented to you while on campus. Some campus buildings or experiences may be unavailable based on public safety guidelines at the time of your visit. Learn more at:

ASU's West campus

North

Map legend

-  ASU building
-  Parking area

Thunderbird Rd

1 University Center Building is the center of campus life and houses Financial Aid and Scholarship Services, ASU Health Services, the Pat Tillman Veterans Center, and the Disability Resource Center. The bookstore, Cafe West, a black box theater, meeting rooms, and La Sala, a multipurpose auditorium facility, are also found here.

2 Delph Courtyard is an inviting outdoor garden patio within the University Center Building accented by a colorful tile water feature. The outdoor seating is a popular spot to enjoy lunch with friends. Throughout the year, campus displays and cultural events, such as Black History and Hispanic Heritage months, fill the courtyard with activity.

3 Faculty/Administration Building contains the administrative and advising offices for the colleges and programs located on the West campus. Classrooms occupy the first floor of the east wing, and the central courtyard features an heirloom rose garden and annual flower beds and bowls.

4 Classroom/Lab/Computer Classroom Building contains studios for art, dance and music, and information technology services. The round walls of the CLCC Building surround a circular courtyard featuring dancing water spouts and a black marble notched saucer, which spills water into a pool that flows down an 11-foot terraced spillway.

5 Fletcher Library was the first building completed on the West campus. The library's collection supports the curriculum on the West campus and features an extensive media collection. Group study rooms, the Student Success Center (a free tutoring center for writing, math, science and business) and the Computing Commons are a few key resources available here. Starbucks is located on the first floor.

6 Sands Classroom Building is one of the main classroom buildings on the West campus. The Information Systems Management Lab is located here, as well as the ASU 1:1 Technology Studio, where IT experts offer on-the-spot technical assistance. A rectangular pool with water fountains highlights Sands' west courtyard, where nearby Kiva Lecture Hall seats up to 100 people.

7 Sun Devil Fitness Complex features an intramural field, a weight and fitness area, group fitness classes, racquetball courts, a swimming pool, a running track, exterior exercise terraces and a fun gaming space. A highlight is the wellness space that includes a demonstration kitchen for healthy food preparation, a fitness assessment area and three alternative medicine studios. Bike rentals and repairs can also be done here.

8 Central Services Complex houses ASU Police, Facilities Development and Management, a small post office and other administrative offices.

9 Las Casas residence hall is a living and learning village that offers apartment-style housing for more than 400 residents. Amenities of the three-story complex include a swimming pool, volleyball court, computer lab, study lounge and private activities for residents.

10 Casa De Oro residence hall provides double-occupancy suite-style units and includes a social lounge, a gaming lounge, study rooms, a community kitchen, laundry facilities, a business center and an interior landscaped courtyard.

11 Verde Dining Pavilion is an all-you-care-to-eat residential restaurant offering a great environment for students to gather for meals, team projects and events. The residential restaurant features a salad bar, deli and grill, home-style and international entrees, and vegetarian and vegan options.

12 Devil's Den student lounge and patio includes a student meeting space, and is connected to Provisions On Demand Market, a great spot for students to grab a Jamba Juice, quick beverage or snack.

13 Changemaker Central is a student-run centralized resource hub for academic courses and cocurricular activities involving social entrepreneurship, civic engagement, service learning and community service that catalyze student-driven social change.

14 North Services Building provides services to students for on-campus parking and transportation needs. Help is also available for students with car problems such as needing a jump-start or opening a locked vehicle. Students can also get their ASU ID cards here.

15 Gary K. Herberger Young Scholars Academy is an initiative of ASU's Mary Lou Fulton Teachers College offering a fast-paced, challenging curriculum for gifted adolescents. When they complete the academy's curriculum, at the end of what would be their junior year of high school in a traditional setting, students will have completed high school requirements and accumulated up to 45 ASU credits.

16 Solar Panels generate enough energy to power the campus during daylight hours.
